

Low Cost Patrol Monitoring

Affordability ... Simplicity ... Flexibility ...

Since its' launch in 1993, the CheckPoint Guard Patrol System has set the standard for affordable, simple to use and flexible patrol monitoring systems.

CheckPoint is tough ... Guaranteed ...!

The CheckPoint data recorders are guaranteed waterproof and tough enough to survive. And, if one should ever leak or break, your 2 year warranty gets it fixed promptly at no cost.

Maintenance free ...

CheckPoint uses internal maintenance free re-chargable batteries and boasts a unique fast charge system that guarantees your batteries are always in top condition.

Flexibility built in ...

As the CheckPoint data recorders are not programmed with any patrol information, the system is completely flexible. Any data recorder can be used by any guard on any site. It's that simple!

Professional report styles for your professional image ...

CheckPoints' new professional report styles allow you to include your company logo and details on your reports to clients. And you can deliver them by email in PDF or Word format, saving you time and money and further enhancing your image.

Interface charger fully recharges internal batteries in as little as 15 minutes
